SUMMARY

Experienced Software Engineer with a strong background in creating comprehensive design documents and implementing tools for system migration. Seeking a role as a Software Engineer to leverage my skills in Golang, React, Django, and Flutter to optimize processes and improve team efficiency and communication.

WORK EXPERIENCE

Software (Site Reliability) Engineer intern

GOOGLE

- Created comprehensive design document for developing a proxy server with stubby service to simplify system migration process.
- Implemented and tested 'stubby proxy' tool for creating stubby backend services and enabling proxying between two stubby services.
- Utilized Golang for the development and implementation of the project.

Software Engineer

Selam Express

- I conducted interviews to gather requirements from various user roles, ensuring a precise alignment with their needs and expectations.
- As a full-stack developer, I collaborated on the creation of an admin web application, optimizing user and order management processes by leveraging React and Django.
- Additionally, I developed a mobile app using Flutter, benefiting manager and agent roles by improving team efficiency and communication.

Software Engineer

Eskalate

- As a Software Engineer at Eskalate contributed to the development of a medical information and appointment system.
- Utilized JavaScript, Express.js, and Angular to execute the implementation.

Full Stack Engineer

A2SV - Africa to Silicon Valley

- Developed and maintained a user-friendly internal tool for tracking students and staff.
- Utilized React for front-end development, focusing on intuitive UI and responsive design.
- Implemented a robust backend using Node.js, including data storage, user authentication, and access control.

EDUCATION

Addis Ababa University

BSc in Software Engineering, Relevant Courses: Data Structure and Algorithms, Computer Architecture and Organization, Operating Systems, System Programming, Computer Networking, Object-Oriented Programming and Software Engineering Principles, Database Administration, Mobile and Web Application Development

SKILLS & INTERESTS

Skills : Python, Java Script / Type SCript, Golang, Dart, c#, Java, Protobuf, Django, React, Next.js, Redux, Node.js, Express.js, Mongodb, Flutter, Bloc
